Shared Calendars

Introduction

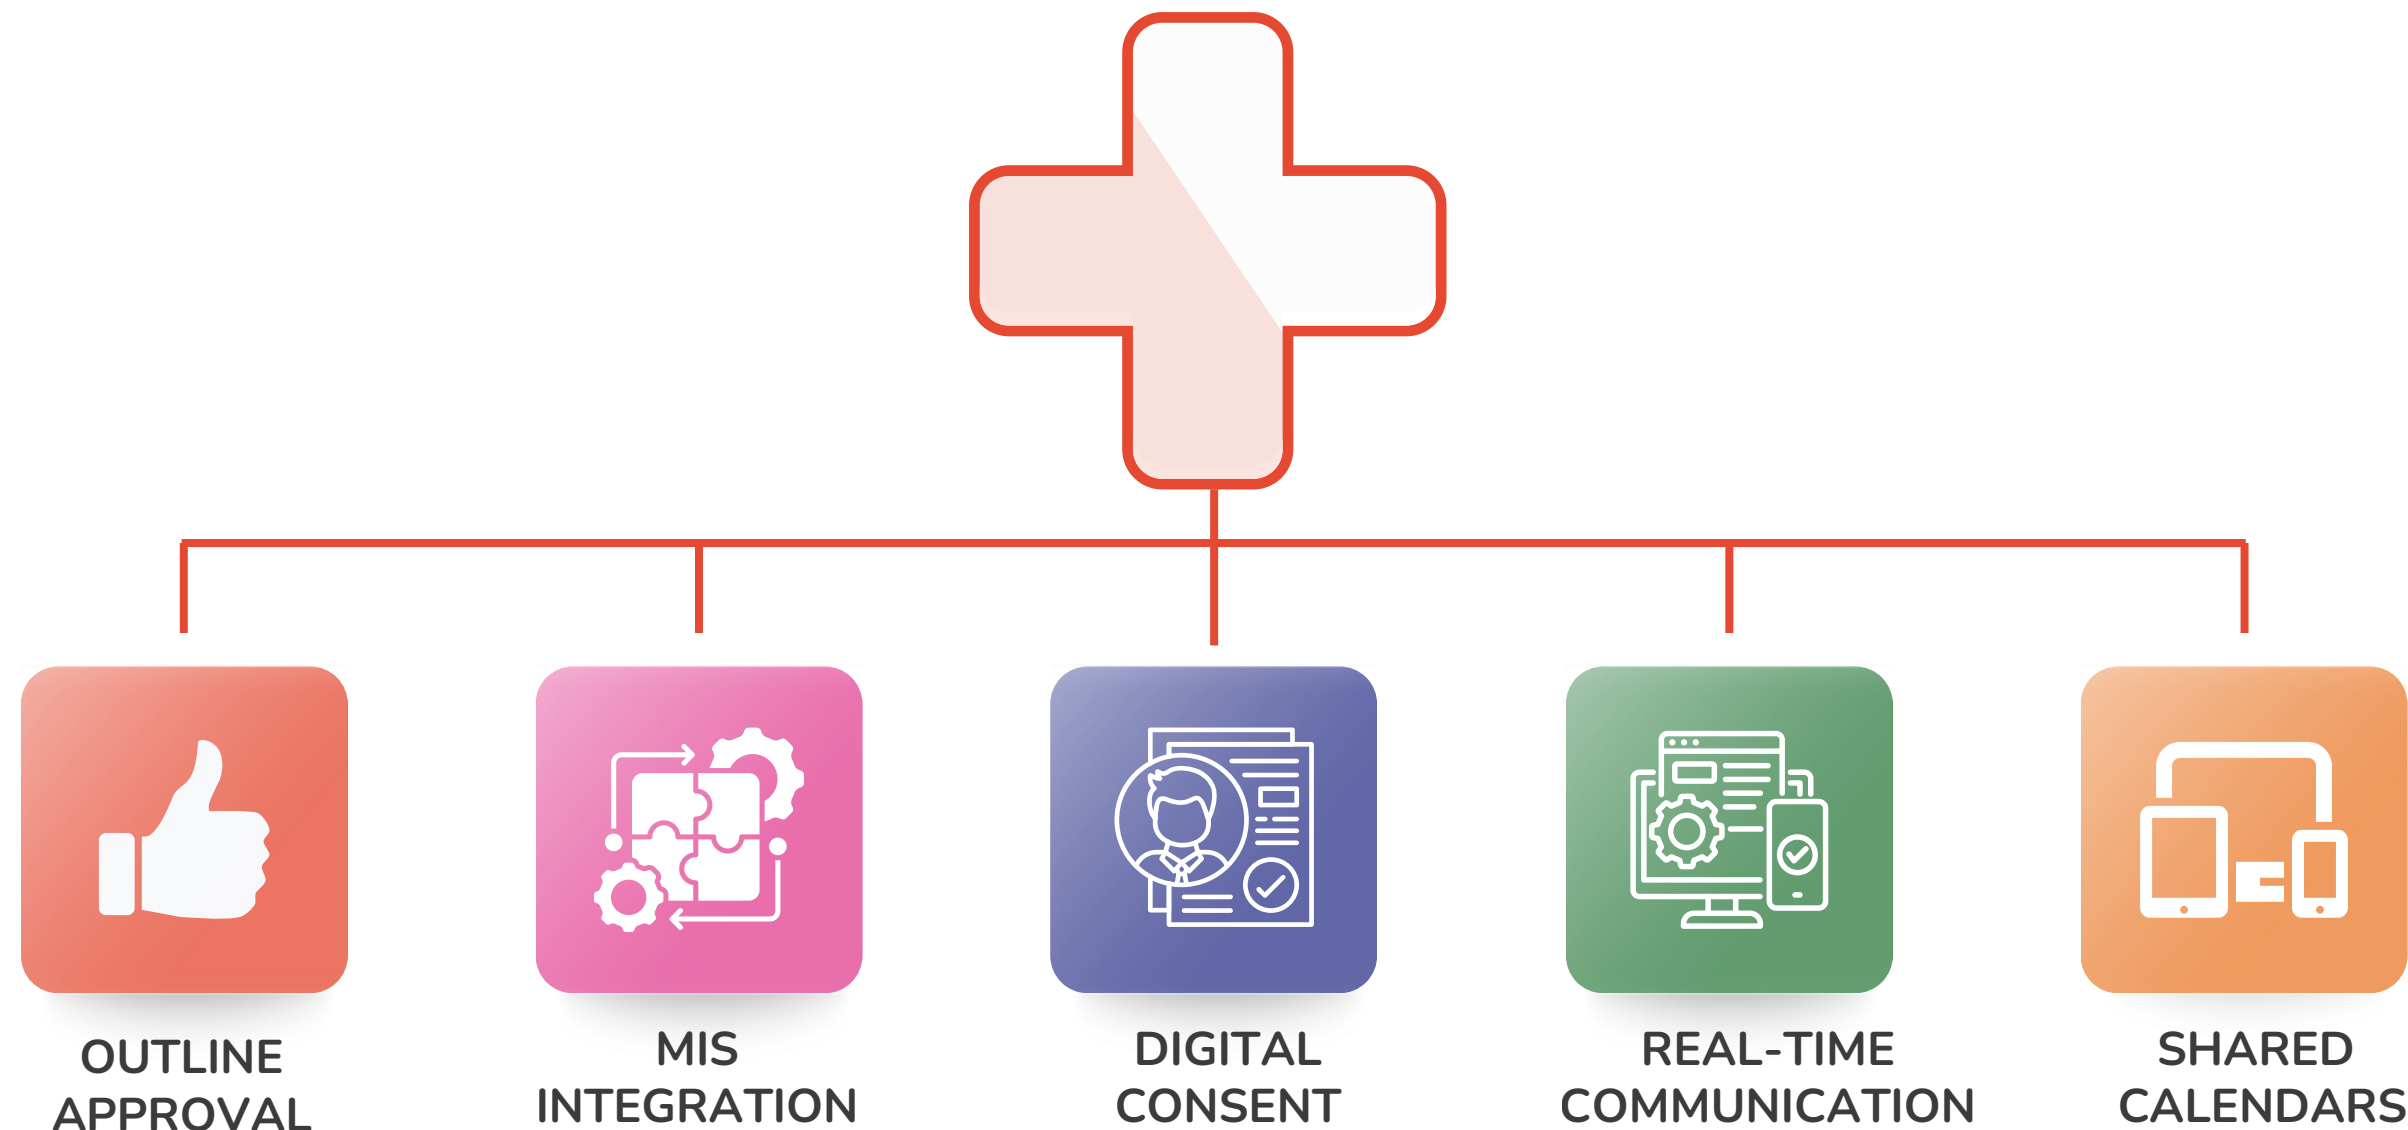

We all know that approval is just the first step in the visit management process and that's why we've designed EVOLVE+ to equip schools with the tools to seamlessly navigate and complete the many additional stages that follow.

Great visits depend on great staff, and EVOLVE+ empowers teachers, administrators, EVCs and visit leaders with the tools to deliver action-packed, adventurous experiences with confidence, clarity and ease.

EVOLVE+ brings everything together in one place, saving time, strengthening safeguarding, enhancing collaboration and transparency, and fostering better relationships with parents.

Key Features

Let's dive a little deeper!

Prevent setbacks by turning early conversations into clear, documented decisions.

Outline Approval

Get Early Approval. Plan with Confidence.

Changing plans late in the process can waste time and put visits at risk.

Planning a school visit often starts with informal conversations but without a clear record, important details can be missed and trips may need to be resubmitted or cancelled.

Outline Approval brings structure to the early stages of planning.

It allows staff to seek initial approval for a visit before completing the full form, so key stakeholders like Finance and Cover can have input early and planning stays on track.

Key Insights

- ✓ Seek approval before investing time in full planning
- ✓ Involve key staff early
- ✓ Complete only essential sections at the initial stage
- ✓ Approvers notified automatically, option to comment
- ✓ Lock approved sections to maintain consistency
- ✓ Avoid fragmented communication
- ✓ Reduce resubmissions and cancellations

EVOLVElink - MIS Integration

Streamline Visit Planning with EVOLVElink

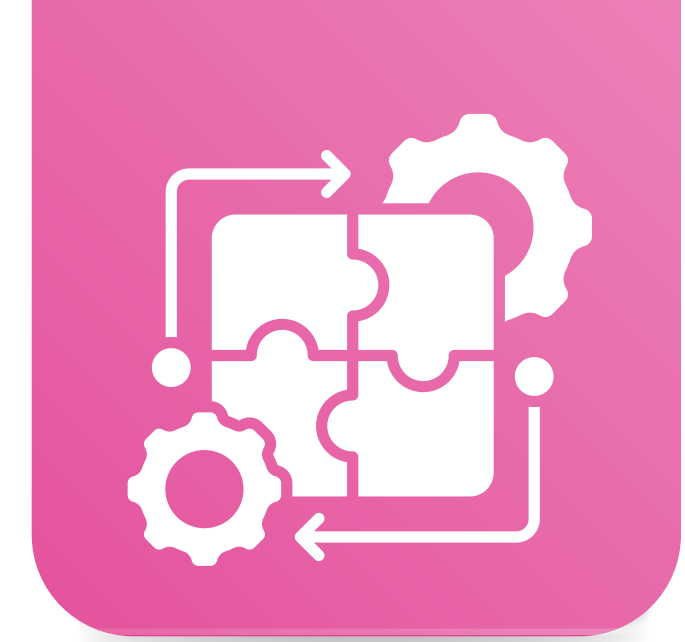

Planning visits shouldn't mean tracking down data.

EVOLVElink connects your MIS (SIMS, iSAMS, Arbor, etc.) directly to EVOLVE, so you can access the information you need without manual input.

You stay in control. Choose exactly what data to sync, from medical and dietary needs to emergency contacts. Most schools select the essentials that keep students safe and staff informed.

By eliminating repetitive data entry and updates, EVOLVElink saves hours of admin time and ensures your registers are accurate and up to date.

*One less thing to worry about
- one big step towards
smarter visit management.*

Key Insights

- ✓ Minimal technical set-up
- ✓ No user involvement required
- ✓ Automatically syncs staff and participant data daily
- ✓ Includes 10 optional data fields
- ✓ Include data required for reporting purposes, i.e. PP
- ✓ Eliminates duplication & time-consuming updates
- ✓ Reduces omissions and errors
- ✓ Auto-rollover each academic year

*The secure way to manage consent,
saving time and reducing risk while
keeping everyone informed.*

Digital Consent

Chasing paper forms and tracking responses shouldn't slow you down.

The Consent Module makes it easy to create, collect and record electronic consent for pupils directly on the trip register, keeping all visit information accurate and in one place.

It also supports offline consent, with the ability for staff, parents and carers to upload attachments to individual forms.

You're in control.

Build your own consent templates or adapt EVOLVE's ready-made versions using a flexible menu of question types, from yes/no to short or long responses. Questions can be marked as mandatory, ensuring parents and carers complete the form fully before submitting.

Key Insights

- ☒ Secure & Centralised Communication
- ☒ Save Time & Cut Costs
- ☒ Real-Time Tracking
- ☒ Parent-Friendly Experience
- ☒ Flexible & Customisable Templates
- ☒ Reliable Record-Keeping
- ☒ Seamless Compliance

Communication - Parental Engagement

Real-Time Communication That Travels With You

Effective communication is essential to the success of any educational visit. By simplifying how parents interact with schools, EVOLVE+ helps build stronger connections and ensures that every visit is well-supported from start to finish.

With EVOLVElink, you have direct access to up-to-date parental contact details. And with EVOLVE+, you can communicate instantly via email, SMS, M2M and the myEVOLVE parent app, all from one place, without relying on third-party tools.

Messages are secure, traceable and automatically logged, supporting trust and establishing a clear audit trail.

And when you're offsite, EVOLVEgo gives you remote access to EVOLVE, so you can stay connected, even with limited internet access.

*Fast, reliable communication
before, during & after every visit.*

Key Insights

- ✓ Secure, centralised communication
- ✓ Anywhere, anytime access
- ✓ Parent-friendly experience
- ✓ Reliable record-keeping
- ✓ Save time and cut costs
- ✓ Contacts are auto-linked to trip registers

M2M (Mobile2Mobile)

- Works with just a phone signal
- Send group texts instantly: no numbers, call groups or printed lists needed
- Uses one SMS credit per recipient
- 500 free credits

The myEVOLVE Digital Portal

Give Parents Clarity and Control Without the Paper Trail

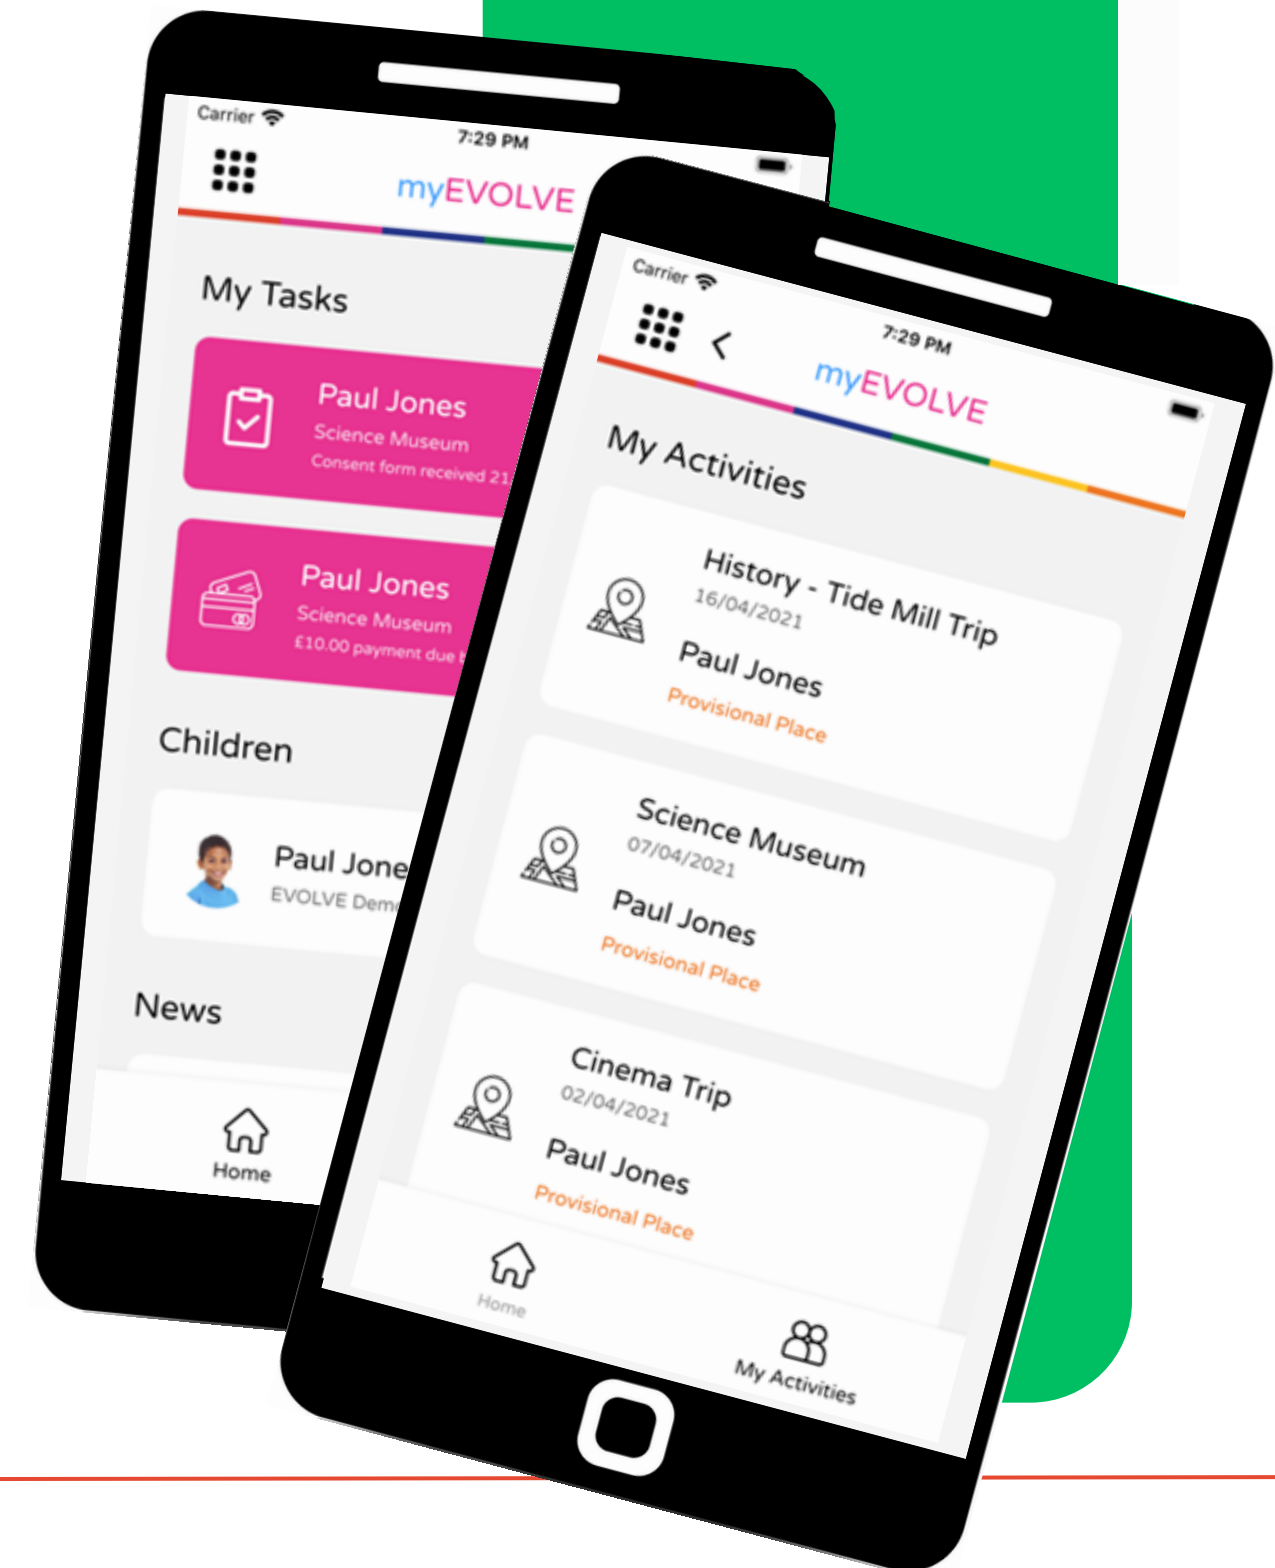

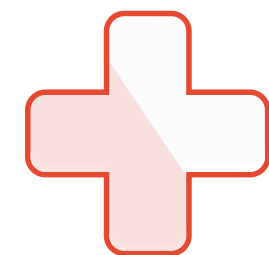

Parents want to stay informed about their child's school life but traditional processes make it difficult. Letters go missing. Consent forms pile up. Payments get delayed. And schools spend hours chasing paperwork.

myEVOLVE is the digital solution that brings everything together.

It gives parents and carers one central place to:

- Track past and upcoming visits, clubs and activities
- Read and download letters and forms
- Complete and submit consent forms
- View available opportunities and register interest
- Make secure online payments

Less printing, fewer admin hours and faster responses.

Keep your whole school community aligned without adding to your workload.

Shared Calendars

Keeping everyone informed shouldn't mean juggling logins, forwarding emails or chasing updates.

When everyone can see what's happening, planning becomes smoother, communication becomes clearer and your school runs more efficiently.

EVOLVE's Shared Calendar feature makes it easy to share real-time visit and activity details with staff, parents and carers:

no passwords, no printed lists, just instant visibility.

It lets you export diary-based visit and activity details into calendar feeds that update in real time, so staff and families can stay informed without logging into another system.

Key Insights

- ✓ Quick to set up and easy to adjust
- ✓ Feeds update automatically in real time
- ✓ Compatible with major platforms
- ✓ Flexible criteria: adjust what's shared as plans evolve
- ✓ Strengthen communication with key stakeholders
- ✓ Share visit and activity info with non-EVOLVE users
- ✓ Planned vs. Approved status clearly distinguishable
- ✓ Visibility for everyone

5 Great Reasons to Upgrade

-  Prevent setbacks, confusion and wasted time by turning early conversations into clear, documented decisions.
-  Instant access to a centralised platform saves hours of admin time and ensures vital information is always on-hand.
-  Creating, collecting and recording electronic consent in one place saves time and reduces risk.
-  Secure, direct communication provides a smoother experience for parents and every message is logged.
-  Share real-time visit and activity details with staff, parents and carers: no passwords, no printouts, just instant visibility.
